PADERBORN UNIVERSITY

1. Job – Our network with firms and businesses in the region and beyond will provide you with job opportunities during and after your studies.

2. Affordable – There are no tuition fees in Germany, not even for international students. The German state pays for the high quality of higher education.

3. Compact – A compact university means that you will find everything you need (library, housing, cafeterias, shopping, entertainment) within walking distance.

4. Safe – No one gets lost in Paderborn: This is a safe and tolerant city. Most people can converse in English and are happy to help you.

5. Supportive – We value your individuality, starting with your application here.

6. Personal – You are never an anonymous student here. There are guides in the faculties and in the international office who can provide you with individual help.

7. Communicative – For our English-language Master’s Program you do not need to speak German, but a little knowledge of the language will help make your stay here more comfortable.

8. Comfortable – Paderborn offers high quality student housing at reasonable prices.

9. Practical – The company located in and around Paderborn offer numerous opportunities for internships as well as practical subjects for a thesis.

10. Equality – All students have equal opportunities at our university. There is also very little hierarchy between students and professors. Students are expected to be independent and to define their own course of study. You will easily receive the support you need if you come prepared and motivated.

A core part of the Master’s program is the project group that trains professional and social skills. Toes of about eight to twelve students work together during two semesters on a challenging research-related topic. Furthermore, the Master’s program includes seminars, an optional minor subject, and extracurricular activities. The final part of the program is the Master’s thesis, which takes a full semester and is related to the chosen focus area.

A core part of the Master’s program is the project group that trains professional and social skills. Toes of about eight to twelve students work together during two semesters on a challenging research-related topic. Furthermore, the Master’s program includes seminars, an optional minor subject, and extracurricular activities. The final part of the program is the Master’s thesis, which takes a full semester and is related to the chosen focus area.

The entry requirements are a B. Sc. in Computer Science or a closely related subject and English language proficiency. The admission deadline is 31st May for starting classes in October, and 30th November for starting classes in April. The program takes 2 years (4 semesters) and is fully taught in English. Graduates obtain the degree of a Master of Science in Computer Science.

The program includes a two-semester project group, where teams of about six to twelve students work on an advanced research and development project. Practicing professional and social skills is an integral part of the project group. Further modules include seminar work and the Master’s thesis, which takes a full semester and is related to the chosen focus area.

The entry requirements are a B. Sc. in Computer Engineering as a related subject, English language proficiency, and a GRE test. The application deadline is 31st March for starting classes in October, and 30th November for starting classes with April. The program takes 2 years (4 semesters) and is fully taught in English. Graduates obtain the degree of a Master of Science in Computer Engineering.

We welcome international students into our English Master’s Program in Computer Science.

The mixture of international and German students in the courses is another Plus for students as well as the international and supportive environment here is definitely beneficial to me, in which I never feel out of place.
